

5i Mould

MECHANICAL ENGINEERING – MOULD DEVELOPMENT

Your partner in mod design, project management and prototyping

OUR TEAM

We are the service provider of :

- **Products analysis & development**
- **Tooling design, manufacturing & testing**
- **Product quality and improvement**

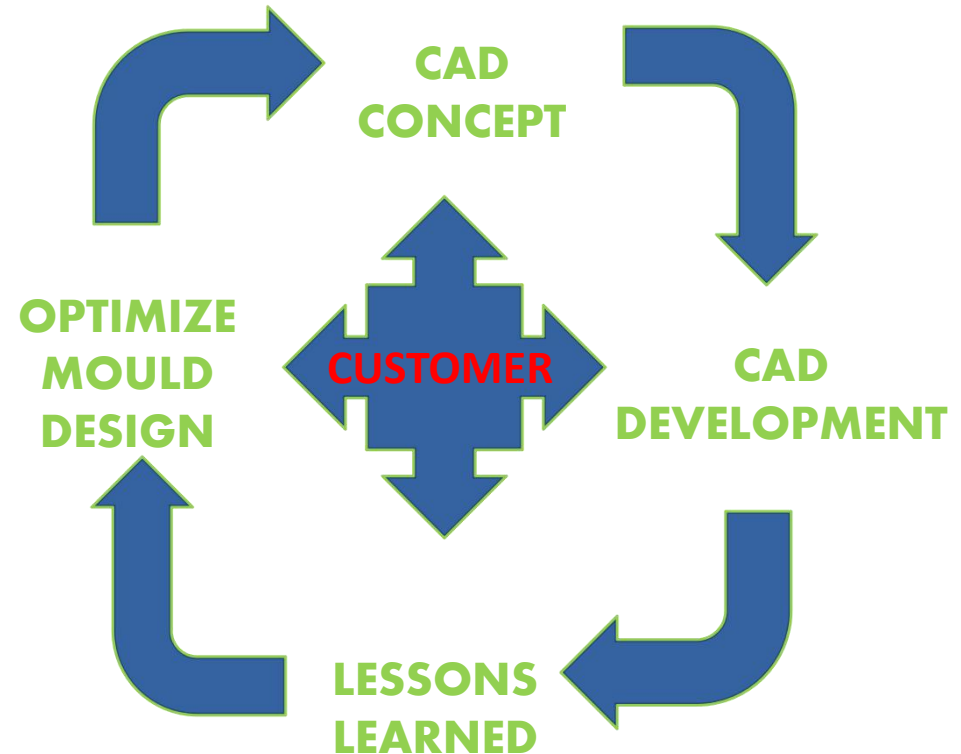

Plastic mould development

➤ CAD Development

- ✓ CAD 3D : backbone of our product development process
- ✓ Working on latest standards and advanced technology
- ✓ CAD data base increase efficiency
- ✓ Moldflow analysis

➤ Optimize mould design

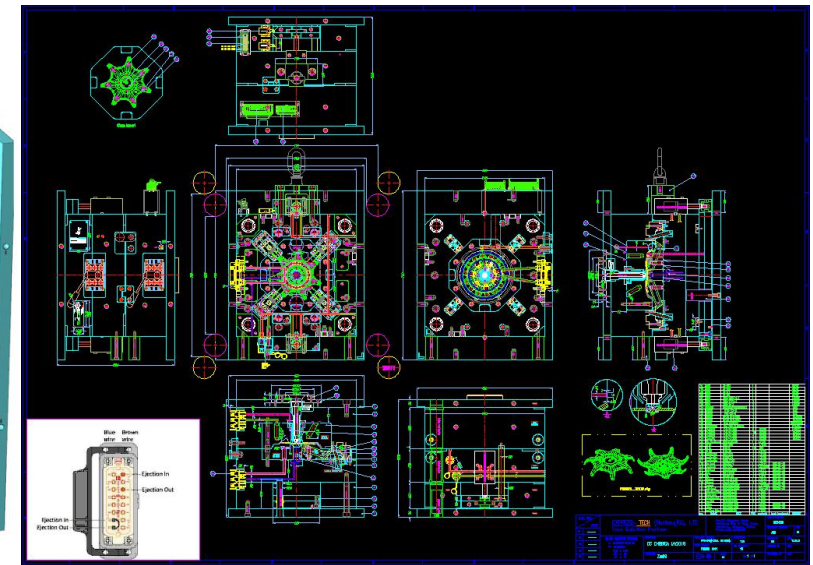

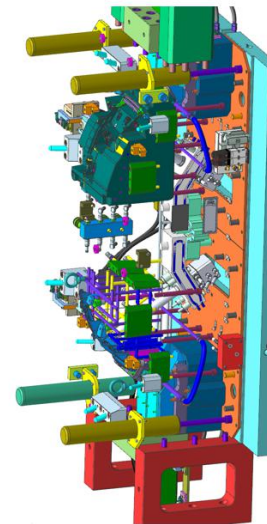

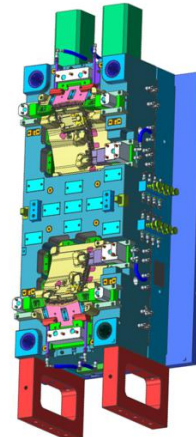

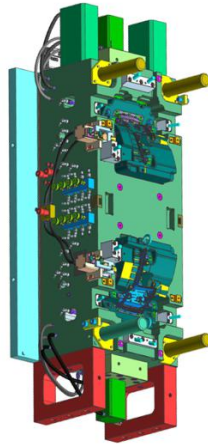

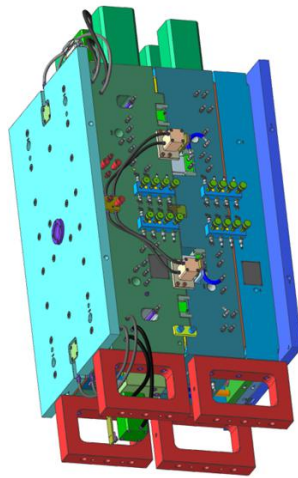

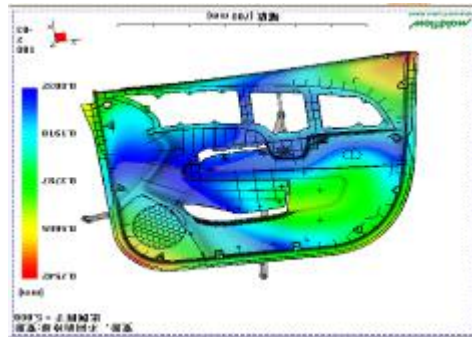

- ✓ Oriented to cost reduction
- ✓ Lessons learned
- ✓ Reliability of engineering solutions

EXPERTS IN MOST COMMON SOFTWARES...

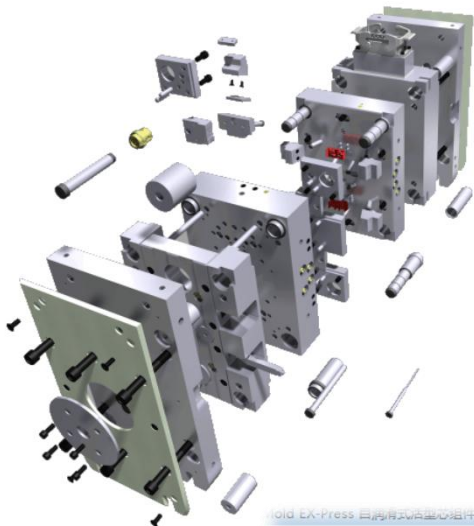

We provide you with design 2D & 3D in short leadtime, detailed and accurate.

✓ CAD data base for molds and standard components
